

Little Manatee Watershed Management Plan – PDF Document Metadata

In 2003, Hillsborough County contracted with the Florida Center for Community Design and Research at the University of South Florida to arrange and convert the Watershed Management Plans into PDF documents that could be downloaded from the Hillsborough County Watershed Atlas (www.hillsborough.wateratlas.org). All available digital documents were obtained from Hillsborough County, not the original engineering firm that produced the Management Plan (unless otherwise noted).

Date of plan: June 2002

Date plan was formatted for the web: February 2004

Number of volumes: Three

Provider of digital files: Hillsborough County Stormwater Management Section

Provider of hard copy documents: Hillsborough County Stormwater Management Section

Original author of plan: PBS&J

Original file type: Word and Excel

Final file type: PDF documents

Final PDF includes scanned pages: Yes

Process: Since the Word and Excel documents provided to the Florida Center were from multiple years and did not correspond exactly to the June 2002 plan, the Florida Center opted to scan the entire hard copy document.

Quality control procedures: The final digital volumes were reviewed and checked against the hard copy documents. Every fifteen pages were checked. No parts of the document were missing. The pagination between the PDF document and the hard copy document are exact since the three volumes were scanned.

Disclaimer: The digital versions of the Hillsborough County Watershed Management plans were arranged and assembled as one complete PDF document for each volume. Since the final documents are a compilation of sources rather than a facsimile of the original hard copy document, there may exist slight variations between the print and digital version (i.e. additional pages, missing pages, or different pagination). Furthermore, there were instances in which the Florida Center had to scan text, tables, figures and exhibits. Every attempt was made by the Florida Center to minimize these differences. However, we cannot guarantee that these PDF documents are exact copies of the hard copy versions of the Management Plans in Hillsborough County's possession.
